

ADRIÁN HOTELES UPGRADES ITS 'WI-FI ROOM SERVICE' TO OFFER UNRIVALLED INTERNET CONNECTION IN THE CANARY ISLANDS

Hotel group equips all rooms with individual Wi-Fi hotspots guaranteeing 100% coverage

24th February 2016 – Award-winning hotel group, Adrián Hoteles, has become one of the first hotel chains in the Canary Islands to equip its three properties in Tenerife with individual in-room Wi-Fi hotspots, guaranteeing 100% coverage in all rooms in addition to the common areas.

The group's upgraded 'Wi-Fi room service' provides a more reliable connectivity to every single room and allows guests to connect up to three different devices – ideal for those who take their mobile, tablet and/or laptop with them on holiday. The new in-room devices, whose internet signals reach all corners of the resorts, are now available at the group's three properties in Tenerife's upmarket resort of Costa Adeje: 5* [Hotel Jardines de Nivaria](#), 5* [Roca Nivaria Gran Hotel](#) and 4* [Hotel Colón Guanahani](#).

Totally free of charge, guests staying at any of the resorts can rely more than ever on the new in-room Wi-Fi hotspots to check emails, browse social networks and surf the web from the comfort of their rooms throughout the duration of their island getaway.

"We understand that a fast and dependable internet service is increasingly important as travellers are keener than ever to stay connected during their holiday," comments Daniel Adrián, Director of Adrián Hoteles, on an interview available on [YouTube](#). "We are very proud to have rolled out this complimentary and more reliable service at our three properties – one of the first hotel companies to offer this in the Canary Islands – and provide even more benefits for guests who book their special break with us."
